Brief description of work to be accomplished: _____

Reason for land clearing, grading, filling and/or drainage: _____

1. Attach, to this application, an accurate plan of the entire site as it exists at the time of the application, which included the following detail:
 - a) All property lines;
 - b) Contours over the entire site (five-foot contour intervals are standard), including the datum of the contours;

- c) A graphic Representation of existing vegetation on the site designated by its common names, the amount of bare ground, and the amount and type of impervious material (rock and artificial)
 - d) the location of all existing drainage facilities, natural and man-made
 - e) The location of structures, utilities and roads;
 - f) Scale of map, no smaller than 1 inch equals 50 feet
2. Attach to this application a proposed work schedule, which details the following:
- a) Sequence of clearing, grading, filling, drainage alteration, and other land-disturbing activities;
 - b) On-site soil or earth material storage and source of import materials;
 - c) Schedule of installation and removal of all interim erosion and sedimentation control measures, including vegetative measures;
 - d) Schedule of construction of final improvements (such as a house), if any;
 - e) Schedule for the installation of permanent erosion and sedimentation control devices.

I hereby certify that information furnished by me is true and correct.
